

Videosec®

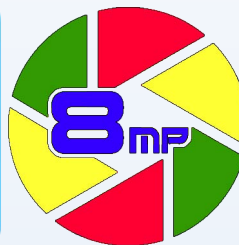

New

MQTT

Unique IP Cameras, MQTT & ONVIF protocol, integrated to all Smart Home/City applications...
with **HYBRID Light**, Active **Deterrence**, Intelligent **IQ Motion** Detection, **Alarm** systems integrated....
Support: **Home Assistant**, **Tuya**, **Alexa**, **Google A.**, **Onvif**, **WiFi**, **LAN**, **Zigbee**, **LoRaWAN**, **RF433MHz**,
Integrated: Camera + strong LED Light + superior smart Motion Sensor + speaker/microphone +++ ...

TIC2621SR-F3-4F4AC-V
Dual Spectrum: 2 Video OUT
1280x720/90° **Thermal** image
+ **4M** (2688x1520)/57°, **Visible**

IPW-2228IQ-60SWXA .. **8Mp**/Lens6mm/F1.0/57°

Dual **HYBRID** Light, **Infrared** + **Visible** LED_s

NO Longer need a traditional lamp, the LED luminaire is built into the camera

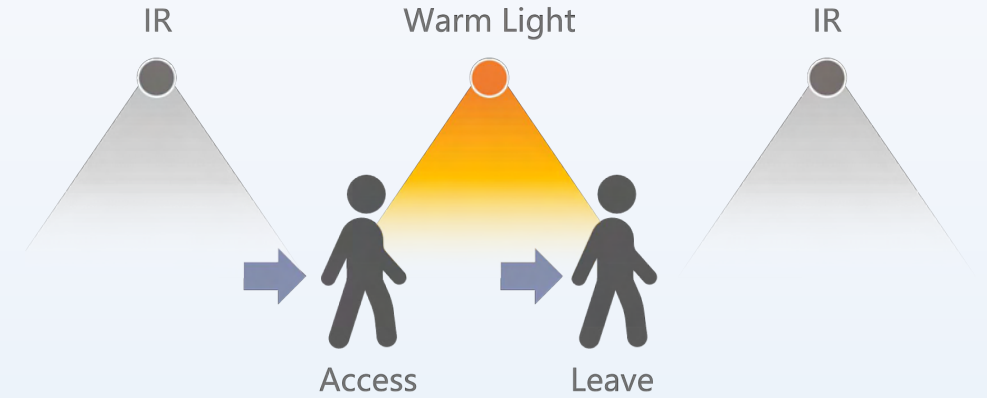

Smart Switch of Dual Light

- Three modes: ①Intelligent (by default); ②IR; ③White light
- Intelligent mode: warm light on (color) when a person is detected.
- Wide application, warnings to intruders, light supplement or illuminator

Deep learning
Human/vehicle/ship
Fire spot/Fire &
Smoke/smoking

Videosec®

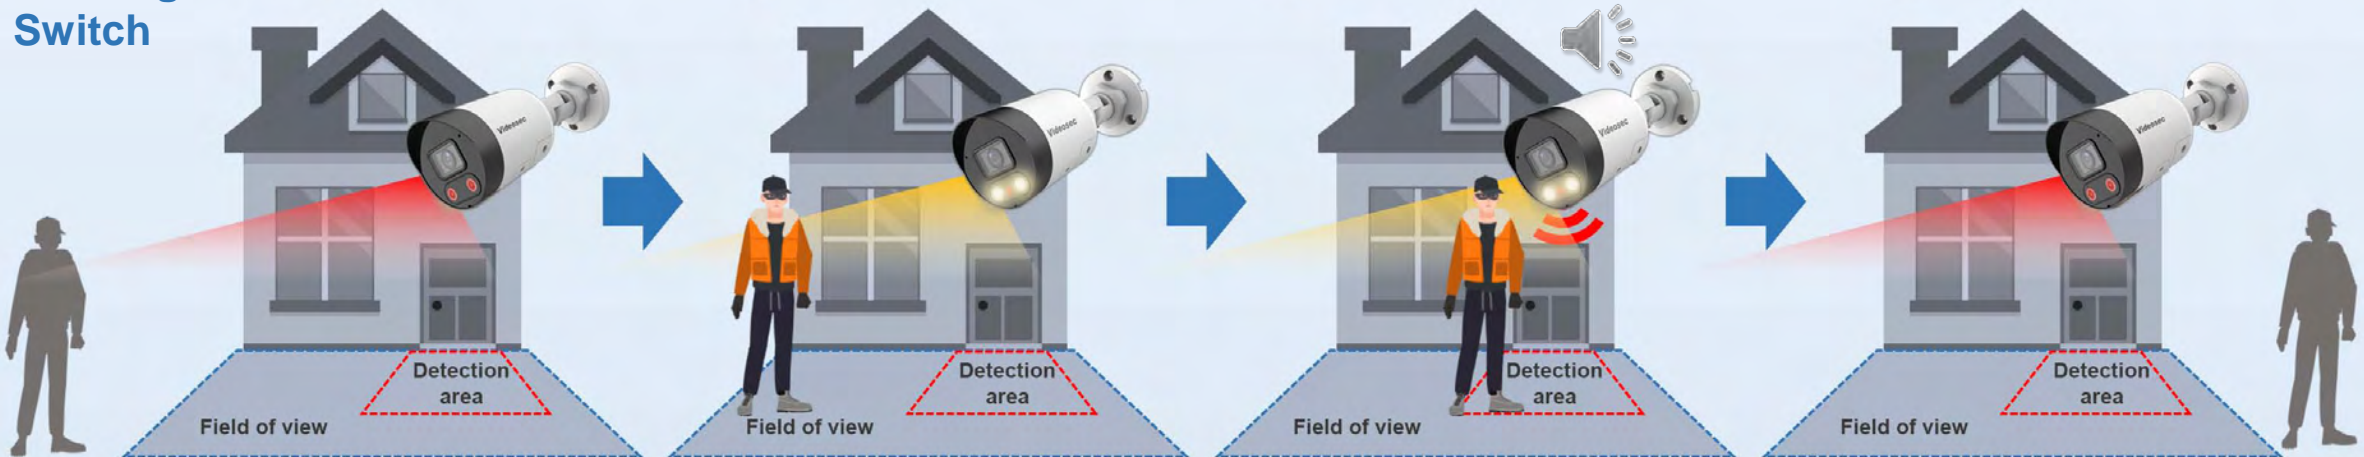

Dual Light Switch

① IR by default.

② Switch to warm light

③ Warm light (color)+ audio warning

④ Switch back to IR

Active Deterrence Camera

Videosec®

Active Light & Sound Alert

- Real-time light and sound for deterrence
- Light and sound can be programmed separately
- Adjustable sound volume and light brightness

Customized Audio File for More Scenarios

Camera provides 6 voice messages and supports customized voice messages, meeting various scenarios.

Reduce False Alarm

Deep learning algorithm, accurate detection of human and vehicles, greatly reducing the false alarm rate

High Frequency Flashing, High Image Quality

High Frequency flashing (28Hz), not affect image quality.

High Integration and Labor saving

Equipped with high-quality microphone and speaker, easy to install and maintain

Hello welcome

Keep out

Dangerous area do not approach

Dangerous heights no climbing

Private domain no entry allowed

You have entered the monitoring area

Support false alarm filtering:

- Ultra IQ motion detection
- Cross Line detection
- Intrusion detection (Area)
- Enter / Leave Area detection
- Smart intrusion prevention
- Tampering alarm, Audio detection
- People counting, People flow counting and crowd density monitoring
- ARP protection, RTSP and User authentication.

- Supports sound and light alarm linkage. When Smart intrusion prevention is triggered the camera links sound output alarm and light linkage.,
- Can trigger third party alarms via universal open digital protocol. by LAN/WiFi/Zigbee/LoRaWAN/RF433MHz ...

The traditional motion detection relies heavily on the detection of pixel changes or motion vectors, and false alarms can be triggered by swaying trees, clouds floating by, or even the appearance of little animals.

The **IQ Motion detection**, with Human / Vehicle detection and can eliminate the false alarms.

With People or Vehicle detection, only human or vehicle activities will trigger an Alarm event.

IQ Motion Detection

Advance Human Presence Detection Cameras

without traditional PIR sensors
